

DeviceInfo::update

```
graph LR; A[DeviceInfo::update] --> B[wrapText]
```

A diagram showing a call from the `DeviceInfo::update` function to the `wrapText` function. The `DeviceInfo::update` box is white with a black border, and the `wrapText` box is gray with a black border. A blue arrow points from the right side of the `DeviceInfo::update` box to the left side of the `wrapText` box.

wrapText
