

block::update

```
graph LR; A[block::update] --> B[HAL::drawLine]
```

A diagram showing a call from the `block::update` function to the `HAL::drawLine` function. The `block::update` function is represented by a white rectangular box with a black border on the left. A blue arrow points from the right side of this box to the left side of the `HAL::drawLine` function, which is represented by a gray rectangular box with a black border on the right.

HAL::drawLine
